

Lesson 7 - ANSWER KEY (Student's Book page 56 and workbook 44)

STUDENT BOOK

Exercise 1a:

1d (ledeniki), 2i (izsekavanje gozda), 3g (onesnaževanje), 4k(fosilna goriva), 5f(ogljikov dioksid), 6a (suša), 7e (deževni pragozd), 8j (orkani), 9h (toplogredni plini), 10b (elektrarne), 11c (klimatske spremembe).

Exercise 1b (photos): 1b (power stations), 2i (izsekavanje gozda), 3a (suša), 4d (ledeniki), 5e (deževni pragozd), 6g(onesnaževanje), 7j (orkani)

Exercise 2a:

1 climate change

2 Greenhouse gases

3 CO₂

4 the ice-caps

5 hurricanes

6 drought

7 fossil fuels

8 power stations

9 deforestation

10 rainforests

Prevodi:

drought = suša

power stations = elektrarne

climate change = podnebne spremembe

the ice-caps = ledeniki

rainforests = deževni gozdovi

CO₂ = ogljikov dioksid

pollution = onesnaženje

greenhouse gases = toplogredni plini

deforestation = krčenje gozdov

hurricanes = orkani

fossil fuels = fosilna goriva

Exercise 3a:

1. five things that produce greenhouse gases: factories, cars, airplanes, power stations, deforestation

2. greenhouse gas: carbon dioxide
3. two things that will happen if the ice caps melt: sea levels will rise and islands and coasts will disappear
4. four kinds of extreme weather: drought, hurricane, heavy rain, high temperatures
5. three places where there are tropical rainforests: South America, Asia and Africa
6. two reasons why forests are cut down: furniture and land

WORKBOOK

Page 44

5A Climate change

1 2 f 3 a 4 g 5 j 6 h 7 c 8 e 9 d 10 b

- 1 climate change
- 2 power stations, fossil fuels
- 3 ice caps
- 4 environmental problems
- 5 sea levels
- 6 carbon dioxide
- 7 tropical rainforests
- 8 forest fires

Lesson 8- ANSWER KEY (Student's Book page 57 and workbook 72)

STUDENT BOOK

Exercise 6a

1. Biofuels are fuels that are made from plant.
2. Biofuels are produced because fossil fuels are running out
3. People think that biofuels are cleaner
4. Most biofuels are used in cars.
5. The speaker think that biofuels are a bad thing.

Exercise 6b

Biofuels use land that is used for food at the moment.

Rainforests are destroyed to provide land for biofuels.

WORKBOOK

Exercise 3a: 1, 5, 8, 2, 7, 3, 6, 4
